Bottle Sterilizer
and Food Steamer

- ✓ Sterilize 6 bottles in 9 minutes
- ✓ Sterilize bottles, nipples and other feeding supplies
- ✓ One button operation convenient for your use.

Components of feeding bottle sterilizer

Continuous high temperature steam sterilization, Complete eliminates the bacteria on the bottle and other items very fast. Sterilize 6 bottles in 9 minutes, fast and convenient for your use.
Small volume with big capacity, sterilize all feeding supplies at the same time. After finishing sterilizing, automatically turn off.

All the components are made of baby safe plastic, resistant to heat upto 110°C

HOW TO USE BOTTLE STERILIZER

Sterilization

1 Pour 100ml of Pure Water into the heating plate.

2 Place the bottles in the sterilizer. Make sure that the sterilizer is placed on a platform, leveled and secured against movement. Close the cover.

3 Plug in and press the ON/OFF button to turn ON the sterilizer which will turn the indicator light on. Machine will automatically turn off, once the water is evaporated. Do not remove the bottles, nipples & other feeding supplies before it cools down.
Note:- Sterilization time is about 9 minutes

Steam Food

1 Pour 100ml of pure water in the sterilizer (Add more water if required as per the volume of food).

2 Put the food on the shelf and close the cover.

3 Plug in and press the ON/OFF button which will turn the indicator light ON. Machine automatically turns off once the water is evaporated.
Note:- Steaming time is about 9 minutes
